DJ NaxXo Beat started with influence of vinyl DJs that came up in Andalusia during the times where raves, meet-ups and festival started to be popular. In 1993 he begins his career as a DJ anchoring music radio shows such as “Puesta en Marcha” and “Ponte a 100” in Spain. Also he combined his job in the radio stations and DJing in some clubs in Andalusia such as Alameda 9 and Sala Étnika in Huelva, Spain, where he started to gain his own reputation.

Once he moved to Madrid, he was still combining his job in the radio stations and his career as a DJ, filling up the clubs with crowds and creating his own productions.

After, he lived in Paris for 2 years and was participating in events around ‘Le Marais’ neighbourhood, in sessions such as Cool Session Paris or Bearis.

Back in Madrid, he is now a resident DJ in ‘Oyam Session’ and he continues his career as electronic music producer.

Last year NaxXxo Beat played in clubs and festivals around Europe, including Construction, Lisbon; WoW, Madrid; SatisfaXion, Seville-Malaga; Oyam, Madrid; Bearis, Paris; Zona2, Madrid; etc… During this last season 2014 he released his new single and will bring a new promising hit for early 2015.
